9. CONDITIONS OF PERMIT ISSUANCE

Commencement of construction consists of placing concrete for a foundation. It does not include grading, installation of utilities, or landscaping. Diligent pursuit is defined as completion of the project within the approved construction schedule and/or permit duration. The expiration date shall not be extended unless the project is determined by El Dorado County to be the subject of legal action, which delayed or rendered impossible the diligent pursuit of the permit.

No construction or grading shall commence until all preconstruction conditions of approval are satisfied as evidenced by El Dorado County's acknowledgement of this permit. In addition, no construction or grading shall commence until the permittee has acknowledged receipt and acceptance of the contents and all conditions of approval of the permit.

In the event the title of the real property is transferred, transfer of the permit shall not be effective until the new owner advises El Dorado County of the transfer and acknowledges, in writing, receipt of the permit and acceptance of its conditions of approval. Until the new owner acknowledges receipt and acceptance of the permit, the current owner shall be responsible for compliance with all permit conditions of approval.

In the event the property owner changes contractors, the property owner shall be responsible for compliance with all permit conditions of approval after the contractor of record on the issued permit or property owner advises El Dorado County Building Department of the transfer. All inspection services will cease until a new contractor transfers the permit under their license or the property owner transfers the permit to an owner/builder permit. These transfers shall be done in writing and on the appropriate Building Department forms.

10. APPLICATION EXPIRATION

Applications for permits become null and void 365 days from the application date if the permit is not issued. Without further notice, all submitted documents are disposed of unless requested to be returned. Plans and documents will not be mailed back at any time during the process and must be "picked up" at the Building Division offices during business hours.

The applicant may withdraw an application at any time by written notice and a partial refund may be issued if the plan check has not been initiated. Fees may be refunded as established by the El Dorado County Building Fee Schedule.

The applicant is responsible for providing information required by other agencies during the application process. No application in the Tahoe Basin shall be accepted after 180 days from the allocation acceptance date.

11. ISSUED PERMIT EXPIRATION

Once issued, the permit will expire two years from the date of issue. The permit holder is responsible for this date as no other expiration notification will be given by the County.

A permit may be renewed for an additional one-year period prior to or within 30 days after the expiration date, provided the permit holder has acted in good faith to pursue construction and has regularly completed inspections during the two-year period. The permit holder may apply for a second one-year permit extension, subject to the provisions above.

The permit holder may apply for a permit reactivation after the four-year permit period, if the project has not received a final inspection approval and the permitted structure is not occupied

12. CONDITIONS IF PERMIT PROCESS IS NOT COMPLETED

If the permit process is not completed by an approved final inspection and expires, no further notice will be given and a Notice of Non-Compliance will be filed with the County Recorder on the property title. If the structure is occupied without approved occupancy, a notice will be forwarded to the Code Enforcement Unit for further action.

The permit holder may withdraw the permit at any time, as long as no work has been done and as long as the El Dorado County Building Department is notified by written notice before expiration of the permit. The permit holder may be entitled to a partial refund of building fees, as established by the El Dorado County Building Fee Schedule, if the permit is withdrawn within two years of the issued date.
