  - ↳ Staging Considerations

# Questions

The screenshot shows a web browser displaying the El Dorado County website. The page title is "Welcome to El Dorado County Harvard Way and Clermont Way Intersection Improvements Project Website". The main content area contains the following text:

The El Dorado County Department of Transportation is partnering with the El Dorado Union High School District for their Oak Ridge High School proposed campus traffic circulation plan. Improvements include increased pedestrian safety and a traffic signal at the intersection of Harvard Way and Clermont Way in El Dorado Hills. The County cannot adequately address all issues without input from those who are directly affected on a daily basis. Therefore, the public is encouraged to remain engaged throughout the process.

You can also visit our website for our Capital Improvement Program Book located here <https://www.edcgov.us/Government/dot/Pages/cip.aspx> for additional information regarding this project.

**WHAT'S NEW**
